

# Mobile Phone Solutions

Application: FPC high temperature resistance carrier film  
 Products: High temperature resistance tape  
 Model No.:

Application: PCB Film Protective Film  
 Products: Protective Film  
 Model No.:

Application: Maintain a stable electrical interconnection between GND and stiffeners.  
 Products: Ultra thin double coated tape/Conductive adhesive tape/ACF  
 Model No.:

Application: Noise suppression of FPC  
 Products: EMI shielding adhesive tape  
 Model No.:

Application: Middle frame/shielding cover insulation and heat dissipation  
 Products: Insulation film+ aluminum alloy  
 Model No.:

Application: NFC protection and attach with back cover  
 Products: Matt black/white protective film/Double coated tape  
 Model No.:

Application: Thermal dissipation  
 Products: Carbon nanotube thermal conductive film  
 Model No.:

Application: LCD backlight modules attachment, shielding and reflection  
 Products: BB/BW double coated tape  
 Model No.:

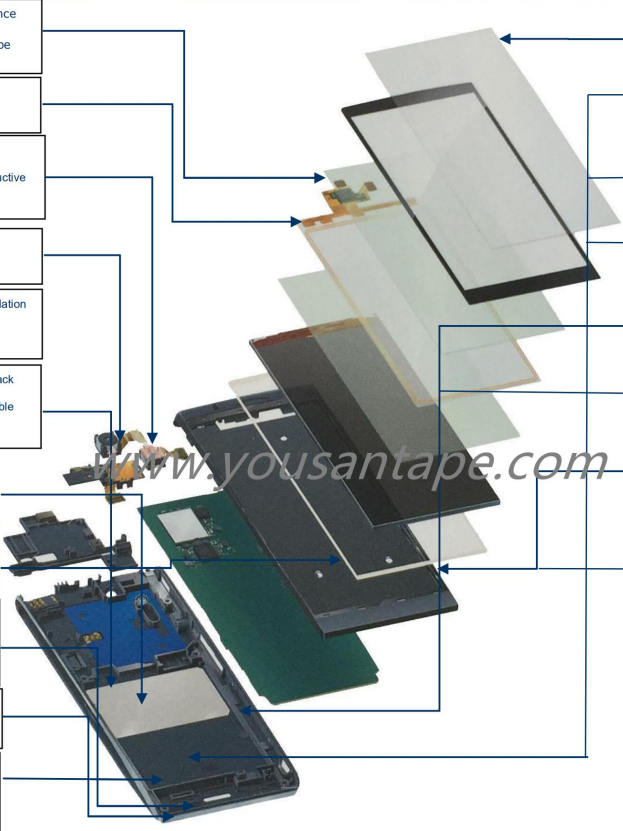

Application: Speaker, dust gauze attachment  
 Products: 50um double coated tape  
 Model No.:

Application: Speaker cones attachment  
 Products: No substrate adhesive.  
 Model No.:

Application: Wireless charging system  
 Products: Matt black single coated adhesive/Ultra thin double coated adhesive/Wave absorbing material  
 Model No.:

Application: Protective Film  
 Products: Anti static PU protective film  
 Model No.:

Application: Graphite protection  
 Products: Ultra thin Matt black/white/bright black  
 Model No.:

Application: Attach graphite and back cover  
 Products: Ultra thin transparent/exclude bubbles/black double coated tape  
 Model No.:

Application: Graphite combination  
 Products: No substrate double coated adhesive tape/Ultra thin adhesive tape  
 Model No.: 8010/8205A

Application: Lithium battery label  
 Products: Matt white/black P E T / P I  
 Model No.:

Application: Fixation of lithium battery  
 Products: High and low viscosity double coated adhesive tape/Stretch release tape  
 Model No.:

Application: Sealing, filling gap, cushioning, sound proofing  
 Products: Foam tape  
 Model No.:

Application: Foam or graphite excluding bubble tape  
 Products: Transparent / Black excluding bubble double adhesive.  
 Model No.:

Application: Process and die cutting tape  
 Products:

01. Steel sheet carrier film
02. Silicon protective film for middle frame.
03. ITO high temp. resistance protective film
04. TP high clean protective film
05. Double coated tape for cutting process
06. Anti-rebound double coated tape for FPC process
07. Single/double coated conductive tape with copper foil.
08. FPC cover film
09. UV off protective film
10. Heat insulation film
11. High performance thermal conductive double coated tape(under development)
12. Water proof adhesive tape(under development)
